## Lawn & Garden Soil Testing Kits

### How does your garden grow?

Mowers Lawn and Garden Soil Analysis Systems are available from the Henry County SWCD. Soil testing kits are \$25 each. Included in the kit are soil sampling instructions, soil probe, and sample bag. A report on the analysis of the soil will consist of pH, phosphorus, potassium, calcium, magnesium, organic matter and cation exchange capacity. Along with the results, will be a fertilizer recommendation and information on lawn and garden fertility.

Description	Quantity	Price	Total
