NATURE FIELD GUIDES

A variety of nature field guides are available to purchase from the Henry County SWCD. The nature field guides are great for gifts, to use at home, or to take along on a hike! Stop by the office to look at them.

Winter Tree Finder

Identify deciduous trees in the winter by their twigs, buds, fruits and other characteristics with this 58 page field guide.

Tree Finder

58 page guide to identify North American deciduous and coniferous trees by their leaves and needles. Includes 161 trees showing range of habitat.

Track Finder

Identify mammals of North America by examining their tracks using this 60 page field guide. Includes terms, print shapes, track patterns, range maps, drawings of animals and descriptions. Good for identifying tracks in mud or snow.

Berry Finder

64 page guide to identify fruit bearing plants in the summer and fall by leaf shape, leaf arrangement and berry.

Critters of Illinois

Learn about Illinois wildlife. 125 page guide includes color pictures, descriptions, glossary, and facts.

Birds of Illinois

270 page guide containing 111 Illinois bird species grouped by color. Guide includes color pictures, range maps, and descriptions.

Fish of Illinois

Identify freshwater fish of Illinois in this 208 page waterproof field guide. Guide includes detailed illustrations and information on range and habitat for each species.

Seedling ID Guide for Native Prairie Plants

Spiral bound book contains 40 native prairie plant species. Guide includes common and scientific names, descriptions, and many pictures.
